

WASHINGTON IS BROKEN

Unelected bureaucrats have stripped states of their rightful decision-making authority. Consequently, the debt is out of control, regulations crush free enterprise, and our freedoms have been stolen. But we have a solution as big as the problem.

Article V of the Constitution allows the states to call a Convention of States to propose constitutional amendments to limit federal spending, debt, and regulations. Amendments can also create better checks on the judiciary and restore the Constitution-as-written, in place of the Constitution as interpreted by activist judges.

“I have whole-heartedly endorsed the Convention of States Project. I serve on its Legal Board of Reference because they propose a solution as big as the problem.”

“There is not enough political will in Washington to fix the real problems facing the country. It’s time for the people to take back their country. The plan put forth by Convention of States is a great way to do just that.”

“The Founders of the United States of America inserted Article V into the Constitution, because they knew the entrenched powers of Washington would thumb their noses at the states...That is why we need a Convention of States.”

“Thank goodness the founders had the wisdom to provide us with Article V of the Constitution. support the efforts to gather a constitutional Convention of States consistent with Article V and honoring the 10th Amendment.”

“I put my trust in the people, not Washington, to restore constitutional, limited government. The Convention of States Project is a genuine grassroots movement to achieve that goal, and one that I am proud to support.”
