WASHINGTON IS BROKEN

UNELECTED BUREAUCRATS HAVE STRIPPED STATES of their rightful decision-making authority. Consequently, the debt is out of control, regulations crush free enterprise, and our freedoms have been stolen. But we have a solution as big as the problem.

Article V of the Constitution allows the states to call a convention for proposing amendments to limit federal spending, debt, and regulations. Amendments can also create better checks on the judiciary and restore the Constitution as written, in place of the Constitution as interpreted by activist judges.

"There's only one movement in America that is standing up to destructive forces and it's Convention of States. There's not another one. We want our Constitution back. And we're gonna take it back whether they like it or not."

MARK LEVIN

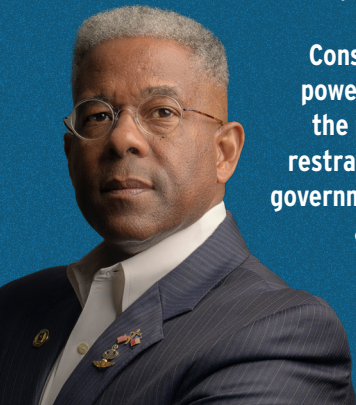

"I've dedicated my life to exposing the lies, the criminal acts, and unethical practices committed by the Deep State in Washington D.C. I am under no illusion that those in D.C. will ever voluntarily give up their power. ... Calling an Article V Convention of States will restore liberty and bring the power back to the people where it belongs."

JAMES O'KEEFE

"Thank goodness the founders had the wisdom to provide us with Article V of the Constitution, which gives us the right and power to hold an Amending Convention for the purpose of proposing amendments to restrain the scope and power of the federal government... I support the efforts to gather a Constitutional Convention of States consistent with Article V and honoring the 10th Amendment."

LT. COL. ALLEN WEST

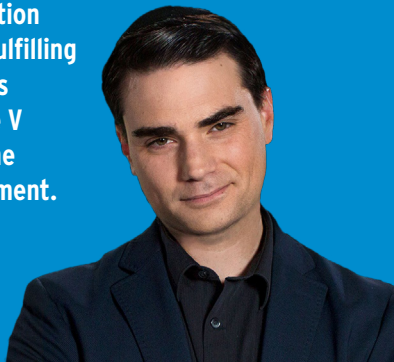

"With too few exceptions, both major political parties have devolved from protectors of the Constitution to its primary threat. As I see it, the Convention of States may be the last chance within the system for we the people to form a more perfect union again."

STEVE DEACE

"I absolutely support the Convention of States Project, designed for fulfilling the Constitutional methodologies for protecting our rights. Article V exists so that the people have the final say, not the federal government. Yes, it can happen—and yes, it should happen."

BEN SHAPIRO

"Years of abuse and overreach by the judicial, legislative and executive branches of the federal government have obliterated the enumerated powers established by our founders. ... That's why I support the Convention of States Project to restore the original constitutional limits on federal power."

SEN. RAND PAUL
